Dear Bob,

As I write this letter of appreciation, snow is gently falling onto the patio, walkway, and parking area which you constructed for us this past fall. Although Yolanda and I can hardly wait for warmer weather, when we will be able to fully enjoy our new backyard, we can take immediate pleasure in viewing the shapes the snow makes on the patterns you created. You made everything fit together and “flow” so naturally!

We have already received a number of compliments on our enhanced landscape--including one or two from professionals who openly admired the quality of your workmanship. Two years ago, when you replaced our front steps and shabby walkway, we were highly satisfied. We are even more satisfied now with your more recent work for us. And we look forward to having you design and construct an enclosed garden and water feature in the near future.

Please feel free to use us as a reference. Having had the opportunity to closely observe you and your men at work, we can attest to the quality and extreme care which you put into each project. Your ideas are creative--you obviously have a knack for knowing exactly what will best enhance an area--and of course your workmanship meets the most exacting standards. We highly recommend you!

Sincerely,

Edward Lodi
