

I wanted to thank Bob for all his work and efforts on putting together a great plan for our basketball court and doing a wonderful job through completion. I have worked with several contractors in my time and I have to say Bob's advice and suggestions from his previous experience with installations was worth it's weight in gold (even though it reduced the amount of money in his pocket)! I would not hesitate to recommend Bob and his crew to anyone looking for them to handle a project like this in the future.
