

June 18, 2008

This is our second experience with Bob Whyte and his crew from NatureScape Landscapes. For obvious reasons, I called Bob back to do our second project and once again was not disappointed. We originally used Bob and crew to redo our front and side walkways. We were so impressed with the new improved look and workmanship that we had them return this year to do another walkway, an entire patio and two rock walls. I would highly recommend Bob and his team. Bob was easy to work with, gave great suggestions, stayed on schedule, was professional, and hires top stone craftsmen. Many of our neighbors have commented what an impressive job NatureScape has done and what a striking addition all the stone work is in our yard. Kudos to the entire team!
