

I live on a 2 acre equestrian property in Cohasset. Bob Whyte of Naturescapes has successfully helped us resolve a number of challenging landscape issues. The property is surrounded by several large outcroppings of ledge, making drainage a problem. A beautiful stone dust path leading down to our barn was continuously washing out , requiring constant maintenance to deal with the erosion problem. Bob Whyte met with us, saw the property, and proposed a clever, yet cost effective drainage solution. We agreed to the proposal. Bob's drainage solution has successfully corrected the erosion problem, saving us the constant expense and labor of maintaining the path.

We also had Naturescape re-grade our riding ring and add new footing with excellent results. The surrounding landscape was also significantly enhanced by Bob and his expert crew. All of the work has been done in a very professional, time efficient manner.

Bob is now coordinating the landscape and hardscape issues involved in our home remodel. His input on the entire project has been invaluable. We are looking forward to a long term relationship with Bob Whyte and the crew of Naturescape for our many landscape projects. I would highly recommend this company.

Sincerely,  
Mary Whitley
