

Bob,

We can't begin to find words to describe the work performed by you and your team, Naturescape, at our oceanfront home in Plymouth, Massachusetts. Let me start with **PROMPT, PROFESSIONAL AND OUTSTANDING**. From the onset, we were impressed by your promptness when we set our first meetings at our home for 8 AM. All too often, 8 AM means 9 AM, 10:30 AM or 11 AM, by the time a contractor or serviceman arrives for an appointment. In all of our dealings with you, promptness was your calling card. We wouldn't be writing this endorsement if your service and product ended with promptness. We expressed to you our thoughts for a finished landscape idea and you provided us with a professional landscape design that was truly beautiful, integrating the ocean, bluffs and surrounding landscape with our home. The terraced design hid the slope of the yard and your grading of the lawn integrated the inlaid paverstones into a magnificent half-moon patio. The sculptured cutout of the flower/seagrass beds blends beautifully with the crushed seashells covering the manicured lawn. Your installation of the irrigation system for both the lawn and flower beds has maintained these areas without any burnout in the hot days of summer. Finally, the exterior shower stall and drainage system has never disappointed us. All of your recommendations were right on point and we can only recommend Naturescape to anyone who would like to stop by and see your work at 162 Warren Avenue in Plymouth, Massachusetts.

Thank you.

Nancy & Tom Rooke
